

BOROUGH OF ESSEX FELLS

TREE REMOVAL PERMIT PACKAGE

Do you plan to remove a standard deciduous or evergreen tree having a diameter greater than six (6) inches measured at a point four and one-half (4 1/2) feet above the ground?

Examples of these trees are Norway, sugar, red or silver maples; sweetgum; London plane tree; American sycamore; white, red or pin oak; yellow or white poplar; copper beech, cedar, spruce, pine fir or hemlock.

Do you plan to remove an ornamental tree having a diameter greater than three (3) inches measured at a point four (4) feet above the ground?

Examples of ornamental trees are birch, dogwood, Japanese maple, cherry, crabapple, magnolia, Bradford pear and willow.

If your answers to these questions are **NO**,
then a tree removal permit is not required.

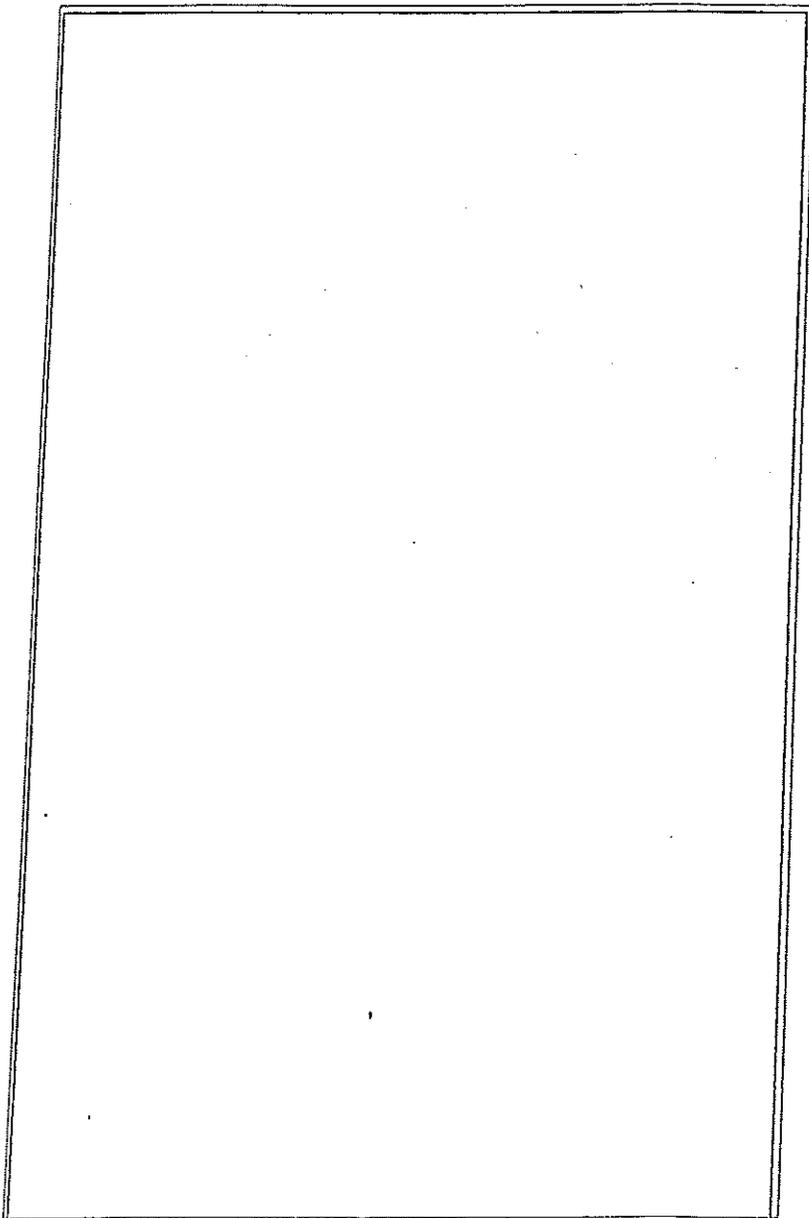

If you answer **YES** to either of these questions,
then a tree removal permit is required.

Please provide the information requested
on the following pages.

Tree Removal Plan

Name: _____ Address: _____

Complete Diagram
Below

DIRECTIONS

- Show existing and proposed structures.
- Show locations of trees to be removed. Number each tree on the diagram and provide specific details on the next page. Failure to fully supply the information requested will delay the processing of your application.
- Show other trees within the drip line of trees to be removed. The drip line is the area where the outer tips of the branches on the trees you want to remove overhang the ground.
- Show distances the trees to be removed are from structures and property lines.

NOTE

You may show the locations of trees to be removed on a copy of your property survey in lieu of this diagram.
